PROFESSIONAL EXPERIENCE

Product Manager and Independent Consultant

Independent Practice / Upwork | Remote | Sep 2023 - Present

Full-time independent practice since Mar 2026

- Delivered 15+ projects for clients in the USA, Turkey and Europe, focused on product strategy, minimum viable product (MVP) definition and delivery. Upwork Top Rated with a 100% Job Success Score.
- Defined use cases and MVP scope for an embedded-finance engagement with a Saudi client, structured across four delivery milestones.
- Advised on B2C SaaS and AI-enabled products and coordinated technical programs across multiple teams, managing delivery dependencies.
- Used agentic AI to compare fintech merchant-app requirements with design content across 357 screens and states, producing 26 prioritized findings and 8 delivery gaps.
- Direct AI agents to develop rapid prototypes, review UI/UX and produce structured product documentation and stakeholder reports, iterating against source material and acceptance criteria.

Product Manager

SilverKey Technologies | Cairo, Egypt | Sep 2022 - Mar 2026

- Owned roadmaps and delivery for a fintech suite spanning consumer apps, merchant and corporate portals, digital lending, mobile wallets and bill payments, serving millions of users in Egypt.
- Led a cross-functional Agile team of 12+ engineers, designers and QA specialists from discovery through UAT and release.
- Owned digital lending and buy now, pay later (BNPL) workflows, including merchant onboarding, credit eligibility, limit management, credit-officer case handling and bank approval routing.
- Translated credit policies into configurable eligibility rules, limits and approval workflows so policy changes could be made without a software release.
- Standardized BRDs, use-case specifications, user stories and acceptance criteria for engineering and QA, improving stakeholder alignment and reducing rework.
- Defined card, wallet, bill-payment and merchant-acquiring integrations with payment networks, card schemes and aggregators, alongside operational dashboards and settlement reporting.
